**Course No
HS-OP01**

Tropical Basic Offshore Safety Induction & Emergency Training (BOSIET)

Introduction

This course is a prerequisite for all personnel working or intending to work offshore in areas where the OPITO certification is required and is recognised by all local concessionaires. The content and delivery of the course is approved and accredited by the Offshore Petroleum Industry Training Organization (OPITO) in the organization's role as the foremost international offshore oil & gas training certifying authority.

The purpose of this training is to provide personnel with a basic level of understanding and an awareness of safety and emergency response on offshore installations.

Target Audience

This program is designed to assist in meeting the initial onshore safety and emergency response training and assessment requirements for personnel new to the offshore oil and gas industry who may be required to work outside of Thailand.

Course Syllabus: Theory & Practical

This course consists of a series of theory presentation followed by practical demonstrations and candidate participation.

Core topics covered are:

- Safety Induction.
- Helicopter Safety & Escape
- Sea Survival
- Boat Transfer
- Firefighting & Self Rescue

Competency

Satisfactory completion of each practical element is a prerequisite for successful award of certification.
