Tropical Further Offshore Emergency Training (T-FOET)

Introduction

This course is a prerequisite for all personnel working or intending to work offshore in areas where the OPITO certification is required and is recognised by all local concessionaires. The content and delivery of the course is approved and accredited by the Offshore Petroleum Industry Training Organization (OPITO) in the organization's role as the foremost international offshore oil & gas training certifying authority.

The purpose of this training is to provide personnel with an opportunity to practise and demonstrate skills that it is not possible to practice offshore during drills, exercises and offshore training.

Target Audience

This program is designed to assist in meeting the ongoing onshore safety and emergency response training and assessment requirements for personnel working within the offshore oil and gas industry in Thailand.

Course Syllabus: Theory & Practical

This course consists of a series of theory presentations followed by practical demonstrations and candidate participation.

Core topics covered are:

- Helicopter Safety & Escape
- Firefighting & Self Rescue

Competency

Satisfactory completion of each practical element is a prerequisite for successful award of certification.
