

Further Offshore Training (FOT)

Introduction

This course is a prerequisite for all personnel working offshore in Thailand and applies to / is recognised by all concessionaires. The content and delivery of the course is approved and accredited by the Technical Petroleum Training Institute in the Institute's role as offshore oil & gas training certifying authority.

The purpose of this training is to provide personnel with an opportunity to practise and demonstrate skills that it is not possible to practice offshore during drills, exercises and offshore training.

The format, contact time and skill sets mirror closely the international standards however each element has been designed for delivery specific to Thailand and the offshore oil & gas personal safety requirements in force.

Target Audience

This program is designed to assist in meeting the ongoing onshore safety and emergency response training and assessment requirements for personnel working within the offshore oil and gas industry in Thailand.

Course Syllabus: Theory & Practical

This course consists of a series of theory presentations followed by practical demonstrations and candidate participation.

Core topics covered are:

-  Helicopter Safety & Escape
-  Firefighting & Self Rescue
