

OPITO Approved Helicopter Underwater Escape Training (HUET with EBS) OPITO Standard Code 5095

| | |
|-----------------------|--|
| Period | 1 Day Theory and Practical |
| Min / Max Class Sizes | 4 / 16 |
| Registration Fee | 20,800 THB + VAT @ 7% |
| Venues | Laem Chabang (near Pattaya), or Songkhla, South Thailand |
| Certificate | OPITO (Standard Code 5095) |
| Validity | 4 Years |
| Accommodation | Optional & additional – many choices available |
| Meals and Breaks | Included |
| Pre-Requisites | Validated Medical Certificate |
| Schedule | Daily |

Course Description

HUET (Helicopter Underwater Escape Training) is meant for those who have to travel by helicopter to and from offshore installations or MODU's for visits but will not be spending significant time offshore and probably not remaining overnight.

Who Should Attend?

This training programme is designed to meet the offshore safety and emergency response training requirements for personnel new or returning to the offshore oil and gas industry who will be visiting offshore installations or MODU's and will be supplied with a rebreather emergency breathing system (EBS) during offshore helicopter travel.

Physical and Stressful Demands

Training and/or assessment activities contained within this Standard may include physically demanding and potentially stressful elements. All personnel who participate in such activities must be physically and mentally capable of participating fully.

Aim and Objectives

The aim of the HUET (with EBS) programme is to prepare delegates that intend to travel to and from offshore oil and gas installations and vessels by helicopter by providing specific training in pre-flight and in-flight requirements and to equip delegates with the basic emergency response knowledge and skills required in the event of a helicopter emergency – with specific focus on escaping from a helicopter following ditching.

The objectives of the HUET (with EBS) Training are that delegates will be able to:

- a. Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching.

Curriculum

The training course consists of the following modules and elements:

Module 1 Helicopter Safety and Escape

Element 1.1 Helicopter Travel

Element 1.2 Helicopter Emergencies
